An Binh Commercial Joint Stock Bank Statement of the Board of Management

The Board of Management of An Binh Commercial Joint Stock Bank ("the Bank") presents this statement and the accompanying consolidated financial statements of the Bank and its subsidiaries (collectively referred to as "the Group") for the year ended 31 December 2024.

The Board of Management is responsible for the preparation and true and fair presentation of the consolidated financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Credit Institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting. In the opinion of the Bank's Board of Management:

- (a) the consolidated financial statements set out on pages from 7 to 88 give a true and fair view of the consolidated financial position of the Group as at 31 December 2024, and of its consolidated results of operations and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Credit Institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting; and
- (b) at the date of this statement, there are no reasons for the Group's Board of Management to believe that the Group will not be able to pay its debts as and when they fall due.

The Board of Management has, on the date of this statement, authorised the accompanying consolidated financial statements for issue.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders An Binh Commercial Joint Stock Bank

We have audited the accompanying consolidated financial statements of An Binh Commercial Joint Stock Bank ("the Bank") and its subsidiaries (collectively referred to as "the Bank"), which comprise the consolidated statement of financial position as at 31 December 2024, the consolidated statement of income and the consolidated statement of cash flows for the year then ended and the explanatory notes thereto which were authorised for issue by the Bank's Board of Management on 28 March 2025, as set out on pages 6 to 88.

The Board of Management's Responsibility

The Board of Management is responsible for the preparation and true and fair presentation of these consolidated financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting, and for such internal control as the Board of Management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Bank's preparation and true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Bank's Board of Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Opinion

In our opinion, the consolidated financial statements give a true and fair view, in all material respects, of the consolidated financial position of An Binh Commercial Joint Stock Bank and its subsidiaries as at 31 December 2024 and of their consolidated results of operations and their consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for credit institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting.

Other matter

The Bank's consolidated financial statements for the year ended 31 December 2024 were audited by another firm of auditors whose audit report dated 29 March 2024 expressed an unqualified opinion on those consolidated financial statements.

(Issued in accordance with Circular No. 49/2014/TT-NHNN dated 31 December 2014 of the State Bank of Vietnam)

2. Basic of preparation

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Credit Institutions stipulated by the State Bank of Vietnam and the relevant statutory requirements applicable to financial reporting. These standards and statutory requirements may differ in some material respects from International Financial Reporting Standards and the generally accepted accounting principles and standards in other countries. Accordingly, the accompanying consolidated financial statements are not intended to present the consolidated statement of financial position and consolidated results of operations and consolidated cash flows of the Bank in accordance with generally accepted accounting principles and practices in countries or jurisdictions other than Vietnam. Furthermore, their utilisation is not designed for those who are not informed about Vietnam's accounting principles, procedures and practices applicable to credit institutions ("Cls").

(b) Basic of measurement

The consolidated financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost concept. The consolidated statement of cash flows is prepared using the direct method.

(c) Annual accounting period

The annual accounting period of the Bank is from 1 January to 31 December.

(d) Accounting and presentation currency

The Bank's accounting currency is Vietnam Dong ("VND"). The consolidated financial statements are prepared and presented in Vietnam Dong, rounded to the nearest million ("VND million").

(e) Form of accounting records

The Bank and its subsidiaries uses accounting software to record its transactions under the form of general journal ledgers.

3. Changes in accounting policies

Application of Circular No. 31/2024/TT-NHNN and Decree No. 86/2024/ND-CP

On 30 June 2024, the SBV issued Circular No. 31/2024/TT-NHNN regulating the classification of assets in operation of commercial banks, non-bank credit institutions, and foreign banks' branches ("Circular 31"). Circular 31 is effective from 1 July 2024.

On 11 July 2024, the Government issued Decree No. 86/2024/ND-CP regulating the credit loss allowance level, allowance method and utilisation of allowance in operation of credit institutions, foreign banks' branches and cases where credit institutions allocate interest receivable to be reverted ("Decree 86"). Decree 86 is effective from 11 July 2024.

(Issued in accordance with Circular No. 49/2014/TT-NHNN dated 31 December 2014 of the State Bank of Vietnam)

Pursuant to Circular 31, Circular No. 11/2021/TT-NHNN dated 30 July 2021 issued by the SBV regulating the credit loss allowance level, allowance method and utilisation of allowance in operation of credit institutions and foreign banks' branches ("Circular 11") is invalid from the effective date of Circular 31.

The Group applies the provisions of Circular 31 and Decree 86 prospectively from the effective dates. Significant changes in accounting policies and their impacts on the consolidated financial statements, if any, are disclosed in Note 4(i).

Application of Circular No. 21/2024/TT-NHNN

On 28 June 2024, the SBV issued Circular No. 21/2024/TT-NHNN regulating the operation of letters of credit and other business activities related to letters of credit ("Circular 21"). Circular 21 is effective from 1 July 2024.

The Bank applies the provisions of Circular 21 prospectively from the effective date. Significant changes in the Bank's accounting policies from applying Circular 21 are disclosed in Note 4(w).

4. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Group in the preparation of these consolidated financial statements.

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Group. The control exists when the Group has the right to govern the financial and operating policies of a subsidiary so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable are taken into account. The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries are also changed when necessary to ensure consistency with the accounting policies adopted by the Bank.

(ii) Transactions eliminated on consolidation

Intra-group transactions and balances, and any unrealised income and expenses arising from intragroup transactions, are eliminated in preparing the consolidated financial statements.

(b) Foreign currency transactions

The Bank's transactions are accounted in original currencies. Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the average of buying and selling spot rates of that currency ("spot exchange rate") at the end of the last working day of the annual accounting period if the difference between the spot exchange rate and the weighted average of the buying and selling spot rates of the last working day of the annual accounting period is less than 1%, in case the difference between the spot exchange rate at the end of the last working day of the annual accounting period and the weighted average of the buying and selling spot rates of the last working day of the annual accounting period is more than or equal to 1%, the Bank uses the weighted average of the buying and selling spot rates of the last working day of the annual accounting period. Non-monetary assets and liabilities denominated in currencies other than VND are translated into VND at rates of exchange at the transaction dates.

The Bank's transactions relating to income and expenses in foreign currencies are translated into VND at rates of exchange ruling at the transaction dates.

Foreign exchange differences arising from monthly translation of monetary assets and liabilities are recognised in the "Foreign exchange differences" account in equity in the consolidated statement of financial position and then transferred to the consolidated statement of income at the end of the annual accounting period.

(c) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, balances with the SBV, deposits with other credit institutions with an original maturity of three months or less from the transaction date which are readily convertible into certain amounts of cash and subject to insignificant risks converting into cash.

(d) Deposits with and loans to other credit institutions

Deposits with other credit institutions include demand deposits and deposits with other credit institutions with original term to maturity of not more than three months.

Loans to other credit institutions are loans with original term to maturity of not more than twelve months.

Demand deposits with other credit institutions are stated at cost.

Deposits with other credit institutions (excluding demand deposits) and loans to other credit institutions are stated at their cost less specific allowance for credit losses.

Debt classification of term deposits with and loans to other credit institutions are made in accordance with Circular 11 (before 1 July 2024) and Circular 31 (from 1 July 2024) and specific allowance thereof is made are made in accordance with Circular 11 (before 1 July 2024) and Decree 86 (from 1 July 2024). Accordingly, the Bank classifies and makes specific allowance for credit losses on term deposits with and loans to other credit institutions in accordance with the accounting policy as described in Note 4(i).

In accordance with Circular 11 and Decree 86, the Bank is not required to make general allowance for term deposits with and loans to other credit institutions.

(e) Trading securities

(i) Classification

Trading securities are debt securities or equity securities acquired principally for the purpose of selling in the short-term or with evidence of purchase for resale with the aim of making short-term profits.

(ii) Recognition

The Group recognises trading securities on the date it becomes a party to the contractual provisions of these securities (trade date accounting).

(iii) Measurement

Trading securities are recorded at cost less provision for trading securities risks (if any). Provision for trading securities risks includes provision for credit risks and provision for diminution in value.

Provision for credit risks is made for trading debt securities which are unlisted corporate bonds (including bonds issued by other credit institutions). The classification of debts and provision for credit risks for unlisted corporate bonds are carried out according to the accounting policies presented in Note 4(i).

Provision for other securities value is made when there is evidence that the market price of trading securities is lower than the price recorded in the accounting books:

- For listed trading debt securities, the market price is determined according to the most recent transaction price at the Stock Exchange within 10 days from the end of the annual accounting period. In the event that there is no transaction within 10 days from the end of the accounting period, the Group does not make provisions for these securities. The Group does not make provisions for Government bonds classified as trading securities.
- For other unlisted trading securities, in case the market price of the securities is not available or cannot be reliably determined, these securities are recorded at cost.

The provision for trading securities mentioned above will be reversed if the price or recoverable amount of the trading securities increases after the provision is recognised. The provision is reversed only to the extent that the carrying amount of these trading securities does not exceed the carrying amount that would have been determined if no provision had been recognised.

Interest income from trading debt securities during the holding period is recognised in the consolidated statement of income upon receipt.

(Issued in accordance with Circular No. 49/2014/TT-NHNN dated 31 December 2014 of the State Bank of Vietnam)

(f) Investment securities

(i) Classification

Investment securities include available-for-sale securities and held-to-maturity securities. The Group classifies investment securities at the time of purchase as available-for-sale securities or held-to-maturity securities. In accordance with Official Letter No. 2601/NHNN-TCKT dated 14 April 2009 issued by the SBV, the Group is allowed to reclassify investment securities maximum once after the initial classification at the purchase date.

Available-for-sale securities

Available-for-sale securities are debt securities or equity securities which are bought and intended to be held for an indefinite period and may be sold at any time.

Held-to-maturity securities

Held-to-maturity securities are debt securities with fixed or determinable payments and fixed maturities where the Group has the positive intention and ability to hold until maturity.

(ii) Recognition

The Group recognises investment securities on the date it becomes a party to the contractual provisions of these securities (trade date accounting).

(iii) Measurement

Equity securities

Available-for-sale equity securities are initially recognised at cost, which includes purchase price plus directly attributable costs such as brokerage, transaction, information provision, and banking fees (if any). Subsequently, these securities are recognised at the lower of book value and market price, with any impairment loss recognised in the consolidated statement of income.

Unlisted available-for-sale equity securities are measured at cost in cases where market prices are not available or cannot be reliably determined.

Debt securities

Available-for-sale debt securities and held-to-maturity debt securities are initially recognised at cost which include purchase price plus any directly attributable transaction costs such as brokerage, transaction, information, taxes, fees and bank charges (if any). Subsequently, these securities are stated at amortised cost (subject to premium and discount amortisation) less allowance for losses on investment securities (including allowance for credit losses and allowance for diminution in value of securities). Premiums and discounts arising from purchases of debt securities are amortised to the seperate statement of income using the straight line method over the year of holding.

An Binh Commercial Joint Stock Bank 1st, 2nd, 3rd Floor, Geleximco Tower, 36 Hoang Cau Street, O Cho Dua Ward, Dong Da District, Ha Noi, Vietnam Notes to the consolidated financial statements for the year ended 31 December 2024 (continued)

(Issued in accordance with Circular No. 49/2014/TT-NHNN dated 31 December 2014 of the State Bank of Vietnam)

Listed available-for-sale debt securities are stated at cost less allowance for diminution in value by referring to the most recent transaction at the Stock Exchange within 10 days until the end of the annual accounting period. In case there is no transaction within 10 days until the end of the annual accounting period, the Group does not make allowances for these securities. The Group does not make allowances for Government bonds, Government-guaranteed bonds, and local government bonds which are classified as investment securities.

Available-for-sale unlisted debt securities and held-to-maturity debt securities are stated at cost less allowance for credit losses in accordance with the requirements of Circular 11 (before 1 July 2024) and Decree 86 (from 11 July 2024) as described in Note 4(i).

Other held-to-maturity securities are stated at cost less allowance for diminution in value. Allowance for diminution in value is made when there is an indicator of long-term decline in the value of the securities or when there is strong evidence that the Group may not be able to fully recover the amount and the Group does not make allowance for diminution in value for short-term changes in prices.

Post-acquisition interest income of available-for-sale debt securities and held-to-maturity debt securities is recognised in the consolidated statement of income on an accrual basis, except for interest income from unlisted corporate bonds classified from Group 2 to Group 5 in accordance with the accounting policies described in Note 4(i) which is regconised when received. Pre-acquisition interest income of debt securities is recognised as a reduction to cost when received.

The allowance for credit losses of investment securities are reversed if the recoverable amount increases after the allowance being recognised. An allowance is reversed only to the extent that the securities' carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(iv) Special bonds issued by Vietnam Asset Management Company ("VAMC")

Special bonds issued by VAMC are valuable papers issued by VAMC to purchase the Bank's bad debts.

The Bank accounts for bad debts sold in exchange for special bonds issued by VAMC in accordance with the guidance of Official Letter No. 8499/NHNN-TCKT ("Official Letter 8499") dated 14 November 2013 issued by the SBV and Official Letter No. 925/NHNN-TCKT ("Official Letter 925") dated 19 February 2014 issued by the SBV. These special bonds are classified as held-to-maturity securities and initially measured at the par value at transaction date and subsequently measured at par value less allowance for losses.

In exchange of every bad debt sold to VAMC, the Bank receives a corresponding special bond issued by VAMC. Par value of the special bond is equal to the carrying value of bad debts sold net off specific allowance which was made but not yet utilised.

Notes to the consolidated financial statements
for the year ended 31 December 2024 (continued)

(Issued in accordance with Circular No. 49/2014/TT-NHNN dated 31 December 2014 of the State Bank of Vietnam)

After completing the procedure of selling bad debts, the Bank writes down the book value of bad debts, using specific allowance which was made but not yet utilised and derecognises interest receivables from off-balance sheet items. At the same time, the Bank recognises the special bonds issued by VAMC in held-to-maturity securities issued by local economic entities. When receiving back the debt sold to VAMC, the Bank uses the allowances that has been periodically made for special bonds to handle bad debts. The difference between the allowances made and the remaining value of the loans/bonds that has not been recovered will be recognised in the "Other income" account in the consolidated statement of income.

For the special bonds issued by VAMC, specific allowance is calculated and made in accordance with the guidance in Circular No. 19/2013/TT-NHNN dated 6 September 2013 ("Circular 19") issued by the SBV regulating the purchase, sale and handling of bad debts of VAMC and Circular No. 14/2015/TT-NHNN dated 28 August 2015 ("Circular 14") and Circular No. 08/2016/TT-NHNN dated 16 June 2016 ("Circular 08") and Circular No. 09/2017/TT-NHNN dated 14 August 2017 ("Circular 09") issued by the SBV amending and supplementing certain articles of Circular 19. Accordingly, the minimum specific allowance required to make annually during the term of the special bonds is the positive difference between 20% of the par value of the special bonds having term of five years deducting the collected amounts of the underlying bad debts. For special bonds with terms extended from five years to ten years in accordance with approved documents issued by the State authorities, the Bank makes allowance for the positive difference between 10% of the par value of the special bonds deducting the collected amounts of the underlying bad debts. Annually, within 5 consecutive working days before due date of the special bonds, the Bank is required to make adequate specific allowance mentioned as above. Allowance for special bonds is recognised in the consolidated statement of income.

(g) Other long-term investments

Other long-term investments are investments in equity instruments of entities where the Group has no control or significant influence. These long-term investments are initially recognised at cost at the time of investment. Subsequent to the initial recognition, they are measured at cost less allowance for diminution in value.

An allowance is made for diminution in investment values if the investee has suffered a loss which may cause the Group to lose its invested capital, unless there is evidence that the value of the investment has not been diminished. The allowance for diminution in value is equal to the difference between the total capital contributed by all investors and the owner's equity of the investee multiplied (x) the Group's actual percentage of equity ownership in the investee at the end of the annual accounting period. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(h) Loans and advances to customers

Loans and advances to customers are stated at the amount of principal less allowance for credit losses, including specific allowance for credit losses and general allowance for credit losses.

Short-term loans are those with maturity term within one year from the loan disbursement date. Medium-term loans are those with maturity term over one year to five years from the loan disbursement date. Long-term loans are those with maturity term of more than five years from the loan disbursement date. For the loans sold to VAMC, the Bank derecognised them from the statement of financial position in accordance with the guidance in Official Letter 8499 and Official Letter 925.

Notes to the consolidated financial statements
for the year ended 31 December 2024 (continued)

Form B05/TCTD-HN (Issued in accordance with Circular No. 49/2014/TT-NHNN dated 31 December 2014 of the State Bank of Vietnam)

For off-balance sheet commitments, the Bank classified such debts based on the number of days past due since the date on which the Bank performs the obligations under the commitments:

- Group 3 Sub-standard debts: if debts are overdue less than 30 days;
- Group 4 Doubtful debts: if debts are overdue from 30 days to less than 90 days;
- Group 5 Loss debts: if debts are overdue from 90 days or more.

Bad debts are debts classified in Groups 3, 4 and 5.

Where a customer owes more than one debt to the Bank and has any of its debts classified to a higher risk group of debts, the Bank is obliged to classify the remaining debts of such customer into the Bank of debts with higher risk corresponding with their level of risk.

Where the Bank participates in a syndicated loan, the Bank reclassifies all debts (including the outstanding syndicated loan) of the customer into the highest risk group as determined by the participating parties.

The Bank is also required to use the results of debt classification as provided by the Credit Information Center of the SBV ("CIC") at the date of classification to adjust the results of its internal classification of debts and off-balance sheet commitments. Where debts and off-balance sheet commitments of one customer are classified by the Bank into a group of debts with lower risk as compared to those provided by CIC, the Bank is required to reclassify such debts and off-balance sheet commitments to the Bank of debts as provided by CIC.

Debt classification for loans having restructured debt repayment terms, interest and fee exemptions or reductions in order to support customers facing difficulties in business activities

From 24 April 2023, the Bank carried out debt rescheduling, retention of debt category to support customers facing difficulties in business activities in accordance with Circular No. 02/2023/TT-NHNN issued by the SBV dated 23 April 2023 ("Circular 02") and Circular No. 06/2024/TT-NHNN issued by the SBV dated 18 June 2024 ("Circular 06") amending and supplementing a number of articles of Circular 02. Accordingly, the Bank shall apply debt restructuring and retention of debt group at the nearest time prior to the debt restructuring if the debt sastifies the following conditions:

- Debts are granted before 24 April 2023 from lending activities and financial leasing activities;
- The obligation to repay principal and/or interest arising in the period from 24 April 2023 to 31 December 2024;
- the outstanding debt of the debt with a restructured repayment term is still due or overdue by 10 (ten) days from the due date, the repayment term according to the contract, agreement; the Bank assesses that the customer is unable to repay the principal and/or interest on time according to the contract, agreement due to a decrease in revenue and income compared to the revenue and income in the principal and/or interest repayment plan according to the contract, agreement; the Bank assesses that the customer is able to fully repay the principal and/or interest according to the restructured repayment term;
- and does not violate the law

the Bank is allowed to restructure the debt repayment period and keep the debt group the same as the debt group at the most recent time before restructuring the debt repayment period.

(ii) Allowance for credit losses

Allowance for credit losses comprises specific allowance for credit losses and general allowance for credit losses.

Specific allowance for credit losses

In accordance with Circular 11 (prior to 1 July 2024) and Decree 86 (from 11 July 2024), specific allowance for credit risks at the end of each month is determined based on the allowance rates corresponding to debt classification results and outstanding principals of debts at the last day of each month less allowed value of collateral assets.

Specific allowance rates applied to each debt group are as follows:

| Group | Type | Allowance rate |
|-------|-------------------------|----------------|
| 1 | Current debts | 0% |
| 2 | Special-mentioned debts | 5% |
| 3 | Sub-standard debts | 20% |
| 4 | Doubtful debts | 50% |
| 5 | Loss debts | 100% |

Value and maximum allowed ratio of collateral assets are determined in accordance with Circular 11 (prior to 1 July 2024) and Decree 86 (from 11 July 2024) whereby each type of collateral assets has a certain maximum allowed rate for the purpose of calculating risk allowances.

Additional specific allowance for customers with debts that have been restructured on term basis and are subject to loan classification retention

The Additional specific allowance is determined as follows:

Additional specific allowance = A - B

In which:

- A: Specific allowance made for all the outstanding debts of customers according to the loan classification regulated by Circular 11 (prior to 1 July 2024) and Circular 31 (from1 July 2024)
- B: Specific allowance made for all the outstanding debts of customers according to the loan classification regulated by Circular 02 and Circular 06

If the aforementioned additional specific allowance in accordance with Circular 06 is positive, the Bank makes additional specific allowance as follows:

- By 31 December 2023: At least 50% of the additional specific allowance;
- By 31 December 2024: 100% of the additional specific allowance.

As at 31 December 2024, the Bank has made 100% of the additional specific provisions mentioned above.

General allowance for credit losses

In according with Circular 11 (prior to 1 July 2024) and Decree 86 (from 11 July 2024), general allowance are made to cover losses that have not been identified during the process of debt classification and specific allowance. The Bank makes and maintains a general allowance of 0.75% of the total value of debts classified into groups 1 to 4 (except for the following: interbank deposits; loans, term purchases of valuable papers with other credit institutions; purchases of deposit certificates and bonds issued by other domestic credit institutions; and repurchases of government bonds). The general allowance is made monthly and is recognised in the consolidated statement of income.

(iii) Writing-off bad debts

In accordance with Circular 11 (prior to 1 July 2024) and Decree 86 (from 11 July 2024), debts are written-off against the allowance when they have been classified to Group 5 or when borrowers have been declared bankrupt or dissolved (for borrowers being enterprises) or borrowers are deceased or missing (for borrowers being individuals).

Debts written off against allowance are recorded as off-balance sheet items for following up and collection. The amounts collected from previously written-off debts are recognised in the consolidated statement of income upon receipt.

(iv) Classification and provision for off-balance sheet commitments

The classification of off-balance sheet commitments is conducted solely for the purpose of risk management, credit quality supervision of credit granting activities. No provision is made for off-balance sheet commitments, except where the Bank has been required to made payment under the commitments, in which case the payment on behalf is classified and allowance is made in accordance with accounting policy as described in Note 4(i)(i) and Note 4(i)(ii).

(j) Derivatives financial instruments

(i) Forward and swap currency contracts

The Bank entered into forward and swap currency contracts in order for customers to transfer, adjust or reduce currency risk, as well as to serve the business purposes of the Bank.

Currency forward contracts are commitments to settle in cash at a future date based on the difference between predetermined exchange rates, calculated on the notional principal amount. Currency forward contracts are recorded at their nominal value at the transaction date and are revalued for consolidated financial reporting purposes at the spot exchange rate at the end of the accounting period and presented at net value in the consolidated financial statements. The difference resulting from the revaluation at the end of the period is recorded in the item "Foreign exchange differences" in the consolidated financial statements each month and is transferred to the consolidated statement of income at the end of the accounting period or upon maturity of the contract. The difference between the VND value of the foreign currency amount committed to buy/sell at the forward exchange rate of the contract and the spot exchange rate at the transaction date is amortised to the consolidated statement of income on a straight-line basis over over the term of the contracts.

(Issued in accordance with Circular No. 49/2014/TT-NHNN dated 31 December 2014 of the State Bank of Vietnam)

Currency swaps are commitments to buy and sell the same amount of foreign currency (only two currencies are used in the transaction) with the same counterparty, in which one transaction has a spot settlement date and the other has a specified future settlement date and the exchange rates of the two transactions are determined simultaneously at the time of confirmation of the spot transaction. The premium or discount resulting from the difference between the spot exchange rate at the effective date of the contract and the forward exchange rate will be recognised immediately at the effective date of the contract as an asset if positive or as a liability if negative in the consolidated statement of financial position. This difference will be amortised on a straight-line basis to the consolidated statement of income over the term of the swap contract.

(k) Repurchase and reverse repurchase agreements

Securities sold under agreements to repurchase at a specific date in the future are recognised in the consolidated statement of financial position. The proceeds from these agreements are recognised as a liability on the consolidated statement of financial position and the difference between selling price and the committed repurchase price is amortised to the consolidated statement of income using the straight-line method over the contractual term.

Securities purchased under agreements to resell at a specific date in the future are not recognised in the consolidated statement of financial position. The cash payment under the agreements is recognised as a loan on the consolidated statement of financial position and the difference between the purchase price and committed reselling price is amortised to the consolidated statement of income using the straight-line method over the contractual term.

(l) Purchased debts

(i) Purchased debts

Purchased debts are recognised at purchasing price on the contract. If the interest receipt thereafter includes the accrued interest before purchase date, the interest recognition is made as follows: (i) reduction of the accrued interest in purchased debts balance; (ii) the interest income in the year for the amount incurred after the purchase date.

(ii) Allowance for purchased debts

The Bank classifies the purchased debts into debt groups which are not lower than those classified by the seller and makes allowance in accordance with the accounting policy as described in Note 4(i).

(m) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the statement of income in the prior in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

| | buildings and structures | 3-50 years |
|----|-----------------------------|------------|
| H | machinery and equipment | 3-20 years |
| ь | office equipment | 3-10 years |
| | motor vehicles | 3-10 years |
| 10 | other tangible fixed assets | 3-10 years |
| | | |

(n) Intangible fixed assets

(i) Land use rights

Definite land use rights are stated at cost less accumulated amortisation. The initial cost of land use right comprises its purchase price and any directly attributable costs incurred in conjunction with securing the land use rights. Amortisation is computed on a straight-line basis over 50 years.

Indefinite land use rights are stated at cost and are not amortised. The initial cost of an indefinite land use right comprises the purchase price and any directly attributable costs incurred in conjunction with securing the land use rights.

(ii) Software

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible fixed asset. Software cost is amortised on a straight-line basis over the useful lives ranging from 3 to 8 years.

(iii) Other intangible fixed assets

Other intangible assets are stated at cost less accumulated amortisation. Amortisation is computed on a straight-line basis over the useful lives ranging from 4 to 6 years.

(o) Investment property

Cost

Investment property held to earn rental is stated at cost less accumulated depreciation. The initial cost of an investment property held to earn rental comprises its purchase price, cost of land use rights and any directly attributable expenditures of bringing the property to the condition necessary for it to be capable of operating in the manner intended by the management. Expenditure incurred after the investment property held to earn rental has been put into operation, such as repairs and maintenance, is charged to the consolidated statement of income in the year in which the expenditure is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in future economic benefits in excess of the originally assessed standard of performance of the existing investment property held to earn rental, the expenditure is capitalised as an additional cost of the investment property held to earn rental.

Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of investment property. The estimated useful lives are as follows:

land use rights 3 - 50 years
 buildings 3 - 20 years

(p) Other assets

(i) Construction in progress

Construction in progress represents costs of purchasing fixed assets and upgrading of software which have not been fully completed. No depreciation is provided for construction in progress during the year of purchasing or upgrading.

(ii) Foreclosed assets

Foreclosed assets are those of which the ownership was transferred to the Bank and awaiting for settlement. For foreclosed assets of which the ownership has not been transferred to the Bank, the Bank records as off-balance sheet items.

(iii) Receivables from credit activities

Receivables from credit activities classified as other assets exposing to credit risk are stated at cost less allowance for credit risks, if any. The Bank classifies and makes allowance for these receivables in accordance with the accounting policy as described in Note 4(i).

An Binh Commercial Joint Stock Bank 1st, 2nd, 3rd Floor, Geleximco Tower, 36 Hoang Cau Street, O Cho Dua Ward, Dong Da District, Ha Noi, Vietnam Notes to the consolidated financial statements for the year ended 31 December 2024 (continued)

(Issued in accordance with Circular No. 49/2014/TT-NHNN dated 31 December 2014 of the State Bank of Vietnam)

(iv) Other assets

Other assets, except receivables from credit activities, are stated at cost less allowance for losses on other assets.

Allowance for losses on other assets are made based on the overdue status of debts or expected losses on undue debts which may occur when an economic organisation is bankrupted or liquidated; or debtor is missing, running away, being prosecuted, in prison, under a trial or pending execution of sentences or deceased. The allowance expenses are recorded as operating expenses during the year.

For overdue receivables, the Group makes allowance for losses using the allowance rates that are applied for overdue status as follows:

| Overdue status | Allowauce rate |
|-----------------------------------|----------------|
| Over 6 months to less than 1 year | 30% |
| From 1 to less than 2 years | 50% |
| From 2 to less than 3 years | 70% |
| From 3 years and above | 100% |

Allowance for losses on other assets which are not overdue are determined by the Group based on the expected losses after giving consideration to the recovery of these receivables.

Deposits and borrowings from other credit institutions and deposits from customers (q)

Deposits and borrowings from other credit institutions and deposits from customers are stated at their cost.

Valuable papers issued (r)

Valuable papers issued are stated at their cost. Cost of valuable papers issued includes the proceeds from the issuance less the cost directly attributable to the issuance.

(s) Other payables

Other payables are stated at their cost.

(t) **Provisions**

A provision except for provisions described in Note 4(i) and Note 4(p) is recognised if, as a result of a past event, the Bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Severance allowance and unemployment insurance

Under the Vietnamese Labour Code, when an employee who has worked for 12 months or more ("the eligible employees") voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employee's compensation at termination. Provision for severance allowance has been provided based on employees' years of service and their average salary for the year prior to the end of the annual accounting period. For the purpose of determining the number of years of service by an employee, the year for which the employee participated in and contributed to unemployment insurance in accordance with prevailing laws and regulations and the year for which severance allowance has been paid by the Group are excluded.

On 24 October 2012, the Ministry of Finance issued Circular No. 180/2012/TT-BTC ("Circular 180") providing guidance on financial treatment for redundancy allowance to employees of enterprises. Circular 180 provides that, in preparation of 2012 financial statements, if an enterprise's provision for redundancy allowance still has the outstanding balance, the enterprise must reverse the balance to other income for 2012 and must not carry forward the balance to the following year. Accordingly, the Group reversed the outstanding balance of provision for severance allowance. This change in accounting policy has been applied prospectively from 2012.

Pursuant to the Law on Social Insurance, effective from 1 January 2009, the Group and its employees are required to contribute to an unemployment insurance fund managed by the Vietnam Social Insurance Agency. The unemployment insurance paid by the Group for the years of service is recorded as an expense in the consolidated statement of income when incurred.

(u) Share capital

(i) Charter capital

Charter capital is the total par value of shares sold. Ordinary shares are stated at par value. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from share premium.

(ii) Share premium

On receipt of proceeds from share issuance from shareholders, the difference between the issue price and the par value of the shares is recognised in share premium account in equity.

(v) Reserves

(i) Statutory reserves of the Bank

Prior 1 July 2024

According to Decree No. 93/2017/ND-CP dated 7 August 2017 issued by the Government of Vietnam on the financial regimes applicable to credit institutions, foreign bank branches ("Decree 93"), the Bank is required to make the following allocations to statutory reserves before distribution of profits:

From 1 July 2024

According to Law on Credit Institutions No.32/2024/QH15 dated 18 January 2024 issued by the National Assembly and Decree 93, the Bank is required to make the following appropriation to reserves before distribution of profits:

| · · | rofit after tax rofit after tax | 100% charter capital Not specified |
|-----|------------------------------------|---------------------------------------|

The purpose of financial reserve is to cover the remaining losses in the course of business after such losses being compensated by the organisations, individuals causing the losses, indemnity from the insurers and utilisation of allowance; to use for other purposes in accordance with the laws. The statutory reserves are non-distributable and are classified as part of equity.

(ii) Other reserves

Other reserves appropriated from the profit after tax decided by the shareholders of the Group at the Annual General Meeting. These reserves are not required by laws, fully distributable and classified as part of equity.

(iii) Bonus and welfare funds

Bonus and welfare funds are not required by laws and are fully distributable, and are used mainly to make payments to the Group's employees. Bonus and welfare funds are appropriated from the profit after tax decided by the shareholders at the Annual General Meeting and are recognised as other liabilities of the Group . The appropriation rate is decided by the shareholders of the Group at the Annual General Meeting.

(iv) Reserves of ABBA

According to Circular No. 27/2002/TT-BTC dated 22 March 2002 issued by the Ministry of Finance on guiding the financial regime for debt management and asset exploitation companies under commercial banks, the distribution of profits, reserve appropriation and purpose of reserves use of subsidiaries are implemented in accordance with current regulations applicable to commercial banks establishing a subsidiary.

(w) Commitments and contingent liabilities

From time to time, the Bank has outstanding commitments to extend credit. These commitments take the form of approved loans and overdraft facilities. The Bank also provides financial guarantees and letters of credit to guarantee the performance of customers to third parties. The contingent liabilities and commitments may expire without being advanced in whole or in part. Therefore the amounts do not represent a firm commitment of future cash flows.

A deferred payment letter of credit has a provision that the beneficiary is entitled to payment immediately or before the due date of the letter of credit

Prior 1 July 2024, upon receipt of a notice from the reimbursing bank that payment has been made to the beneficiary, the Bank shall record the amount payable to the reimbursing bank as a loan to another credit institution, and shall record the amount receivable from the customer in Other assets.

From 1 July 2024, upon receipt of a notice from the reimbursing bank that payment has been made to the beneficiary, the Bank shall acknowledge the debt to the reimbursing bank, and the customer shall acknowledge the debt to the Bank for the amount the reimbursing bank has paid to the beneficiary as committed in the letter of credit. Upon receipt of a notice from the reimbursing bank that payment has been made to the beneficiary, the Bank shall recognise the amount accepted as a debt with the reimbursing bank as a borrowing from other credit institutions, and at the same time, recognise the amount the customer has accepted as debt as a loan to customers.

(x) Revenue

(i) Interest income

Interest income is recognised in the consolidated statement of income on an accrual basis, except for interest income from debts classified in Group 2 to Group 5 (as described in Note 4(i)) and debts classified in Group 1 (Current debts) resulting from implementation of of Circular 02 and Circular 06 of the State authorities being recognised upon receipt. When debts are classified in Group 2 to Group 5 or is maintained in Group 1 resulting from implementation of of Circular 02 and Circular 06 as presented in Note 4(i), the accrued interest receivables are reversed and recognised in the off-balance sheet items and are recognised in the consolidated statement of income upon receipt.

When a debt is classified as Current debt resulting from implementation of special rulings of the State authorities, the interest income arising during the year is not recognised as income but records in the off-balance sheet. Interest income from these debts is recognised in the consolidated statement of income upon receipt.

(ii) Fee and commission income

Fees and commission income includes fees received from asset leasing services, settlement services, guarantee services, treasury services and other services. Fees and commission income are recognised in the consolidated statement of income on an accrual basis.

Lease income from lease properties is recognised in the consolidated statement of income on a straightline basis over the term of the lease. Lease incentives granted are recognised as an integral part of total rental income. Other fee and commission income (excluding lease income) is recognised in the consolidated statement of income when incurred.

(iii) Dividend income

Dividend income in the form of cash is recognised in the consolidated statement of income when the Group's right to receive dividend payment is established.

Dividend income in the form of bonus shares is not recognised as an income in the consolidated statement of income. When receiving bonus shares, the Group only records the increase in number of shares in the notes to the consolidated financial statements. Dividends received which are attributable to the year before investment acquisition date are deducted from the carrying amount of the investment.

(y) Expenses

(i) Interest expense

Interest expense is recognised in the consolidated statement of income on an accrual basis.

(ii) Fees and commission expenses

Fees and commission expenses are recognised in the consolidated statement of income when incurred.

(z) Operating lease payments

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statement of income as an integral part of the total lease expense.

(aa) Taxation

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the end of the annual accounting period, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities using the tax rates enacted or substantively enacted at the end of the annual accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(bb) Earnings per share

The Group presents basic earnings per share for its ordinary shares. Basic earnings per share is calculated by dividing the profit or loss attributable to the ordinary shareholders of the Bank, (after deducting the bonus and welfare fund appropriated during the reporting period) by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is determined by adjusting the profit or loss attributable to the ordinary shareholders and the weighted average number of ordinary shares outstanding for the effect of all dilutive potential ordinary shares, including convertible bonds. Potential ordinary shares are considered to be diluted only when converting them into ordinary shares will reduce the earnings or increase the loss per share. If potential shares are not dilutive, the Bank does not present diluted earnings per share.

(cc) Related parties

Parties are considered to be related to the Group if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Group and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

(dd) Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Group's format for segment reporting is based on geographical segments.

(ee) Financial instruments

Solely for the purpose of providing disclosures about the significance of financial instruments to the Group's financial position and results of operations and the nature and extent of risk arising from financial instruments, the Group classifies its financial instruments as follows:

(i) Financial assets

Financial assets at fair value through profit or loss

(Issued in accordance with Circular No. 49/2014/TT-NHNN dated 31 December 2014 of the State Bank of Vietnam)

- (i) This balance represented sold debts classified as current at the selling time to Hoang Cau Investment and Infrastructure Construction Joint Stock Company and TBIC Joint Stock Company. These receivables from sold debts will be settled on instalment basis under contractual agreements.
- (ii) This is ABBA deposit to Minh Hieu Seafood Joint Stock Company for real estate purchasing. However, procedures for transferring ownership to ABBA have not been completed. In 2016, ABBA filed a lawsuit to Bac Lieu People's Court for refund of the deposit or completing ownership transfer process. Pursuant to the conclusion of the Appellate Criminal Judgement No. 148/2024/DS-PT dated 27 March 2024 of the Supreme People's Court in Ho Chi Minh City, the first-instance judgment No. 10/2022/DS-ST dated 27 May 2022 of the Bac Lieu People's Court was annulled and the case file was transferred to the Bac Lieu People's Court for retrial under the first instance procedure. As of the issuance date of these consolidated financial statements, the case is still under investigation and ABBA has not received any further response from the competent authorities. As at 31 December 2024, the Group has made a full allowance amounting VND48,000 million (31/12/2023: VND48,000 million) based on the recoverability.
- (iii) The balance as at 31 December 2024 and 31 December 2023 includes receivables from Hanoi General Import-Export Joint Stock Company ("Geleximco") in the amount of VND35,855 million, related to securities sale contract No. 1412/HDCN.09 dated 14 December 2008 and contract No. 2112/HDCN.09 dated 21 December 2009. The Bank has made a 100% provision for this receivable based on the recoverability.
- (iv) This is the amount the Bank lent to ABLand to pay for the rental of the property at 65-65A, 3/2 Street, Ho Chi Minh City, which is ABLand's office. The Bank has made a 100% provision for receivables based on the recoverability.
- (v) This is the deposit for purchasing DVD shares that the Bank transferred to An Binh Securities Joint Stock Company ("ABS") in the second unsuccessful share issuance of DVD in 2010. As at 31 December 2024, ABS has not yet paid the Bank this amount and the Bank has made a 100% provision for this deposit.

36. Earnings per share

(a) Basic earnings per share

The calculation of basic earnings per share was based on the net profit attributable to ordinary shareholders and a weighted average number of ordinary shares outstanding during the year, calculated as follows:

(i) Net profit attributable to common shareholders

| | 2024 VND million | 2023 VND million (Revised) | 2023 VND million (As previously reported) |
|--|---------------------|----------------------------------|--|
| Net profit for the year | 585,556 | 453,502 | 453,502 |
| Appropriation to bonus, welfare funds (*) | ÷ | (40,541) | - |
| Net profit attributable to ordinary shareholders | 585,556 | 412,961 | 453,502 |

(*) At of the issuance date of this report, the Group has not reliably estimated the appropriation of profit after tax to bonus, welfare fund for the year ended 31 December 2024 because the General Meeting Shareholders has not yet decided on the appropriation rate from the profit after tax for the year 2024. If the Group make appropriation to the bonus and welfare fund, the profit attributable to ordinary shareholders will decrease accordingly.

The net profit attributable to ordinary shareholders for the year ended 31 December 2023 has been adjusted after the Group received the approved appropriation to the bonus and welfare fund from profit in 2023.

(ii) Weighted average number of ordinary shares

44. Financial risk management

(a) Financial risk management

(i) Overview

Risks are inherent in the Group's activities and are managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group's profitability and each individual within the Group is accountable for the risk prevention relating to their responsibilities. The Group is exposed to such types of risk as credit risk, liquidity risk and market risk (then being classified into business and non-business risks). The Group is also subject to various operational risks.

(ii) Risk management framework

The independent risk control process does not include business risks such as changes in the environment, technology and industry. These business risks are monitored through the Group's strategic planning process.

Risk Management Structure

The Board of Directors is ultimately responsible for identifying and controlling risks. However, each separate member shall be responsible for managing and monitoring risks.

Board of Directors

The Board of Directors is responsible for monitoring the overall risk management process within the Group.

Risk Management Committee

Risk Management Committee advises the Board of Directors in the promulgation of procedures and policies under their jurisdiction relating to risk management in the Group's activities.

Risk Management Committee analyses and provides warnings on the potential risks that may affect the Group's operation and preventive measures in the short term as well as long term.

Risk Management Committee reviews and evaluates the appropriateness and effectiveness of the risk management of procedures and policies of the Group to make recommendations to the Board of Directors on the improvement of procedures, policies and operational strategies.

Board of Supervision

The Board of Supervision has the responsibility to control the overall risk management process within the Group.

Internal Audit

In accordance with the annual internal audit plan, business processes throughout the Group is audited annually by the internal audit function, which examines both the adequacy of the procedures and compliance with the Group's procedures. Internal Audit discusses the results of all assessments with management and reports its findings and recommendations to the Board of Supervision.

Risk measurement and reporting systems

The Group's risks are measured using a method which reflects both the expected loss likely to arise in normal circumstances and unexpected losses, which are an estimate of the ultimate actual loss based on statistical models.

Monitoring and controlling of risks are primarily performed based on limits established by the Group in compliance with the State Bank of Vietnam's regulations. These limits reflect the business strategy and market environment of the Group as well as the level of risk that the Group is willing to accept.

Information compiled from all business activities is examined and processed in order to analyse, control and early identify risks. This information is presented and explained to the Board of Management, Board of Directors, and the department heads. The report includes aggregate credit exposure, credit metric forecasts, limit exceptions, liquidity ratios and risk profile changes. The Board of Directors assesses the appropriateness of the allowance for credit losses on a quarterly basis. The Board of Directors receives a comprehensive risk report quarterly which is designed to provide all the necessary information to assess and conclude on the risks of the Group.

For all levels throughout the Group, specifically tailored risk reports are prepared and distributed in order to ensure that all business departments have access to extensive, necessary and up-to-date information.

Risk Mitigation

The Group has proactively used collateral to mitigate credit risk.

Concentration Risk

Concentration risk arises when a number of counterparties of the Group is engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would affect the Group of customers' payment obligations or payment receipt rights when due under changes in economic, political or other conditions.

These above concentration risk indicates the relative sensitivity of the Bank's performance to the development of a particular industry or geographic allocation.

In order to avoid excessive concentration risk, the Group's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio. Identified concentration of credit risk are controlled and managed accordingly. Selective hedging is used within the Group in respect of the industries and other related factors.

(b) Credit risk

Credit risk is the risk that the Group will incur a loss because its customers or counterparties fail to discharge their contractual obligations.

The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

The Group has established a credit quality review process to provide early identification of possible changes in the financial position and creditworthiness of counterparties based on qualitative and quantitative indicators. Counterparty's limits are established by the use of a credit rating system, which assigns each counterparty a risk rating. Risk ratings are subject to regular revision.

Not considering collaterals, the Group's maximum exposure to credit risk at the end of the annual accounting period was as follows:

(i) Deposits with and loans to other credit institutions

Deposits with and loans to other credit institutions of the Group neither past due nor impaired are mainly held with well-known financial institutions. The Group's Board of Management does not foresee any significant credit risk from these deposits and loans and does not expect that these financial institutions may default and cause losses to the Group.

(ii) Loans and advances to customers

Loans and advances to customers that are neither past due nor impaired are mostly from customers with good payment records with the Group.

An aging analysis of financial assets that are past due but not impaired at the end of the annual accounting period were as follow:

| As at 31 December 2024 | From 10 to 90 days VND million | From 91 to 180 days VND million | Overdue From 181 to 360 days VND million | Over 360 days VND million | Total VND million |

Refer to Note 40 for types and values of collaterals received from customers. The Group has not determined fair values of the collaterals for overdue and impaired financial assets for disclosure in these consolidated financial statements because there is currently no guidance on determination of fair value by using valuation techniques under Vietnamese Accounting Standards, the Vietnamese Accounting System for Credit Institutions stipulated by the SBV in case quoted price in the market is not available. The fair values of these collaterals may differ from their carrying amounts.

(iii) Purchased debts

The purchased debts are loans classified as Group 1 and the Bank's Board of Management believes that no significant financial loss may arise from these purchased debts.

(iv) Investment securities

The Group limits its credit risk by investing only in government bonds, bonds issued by other domestic credit institutions, bonds issued by economic organisations with good reputation in the market or listed on the stock market. The Group's Board of Directors believes that no material financial loss may arise from these investment securities.

(c) Market risk

(i) Interest rate risk

Interest rate risk is the risk that fair value or cash flows of financial instruments will fluctuate because of movements in the market interest rate. The Group will be exposed to the interest rate risk when there is a gap between maturity date or interest repricing date of assets, liabilities and off-balance sheet commitments in a specific period of time. The Group manages this risk by matching the dates of interest rate repricing of assets and liabilities.

Analysis of assets and liabilities based on actual interest rate repricing term

The actual interest rate repricing term is the remaining period from the reporting date to the next interest rate repricing date or the maturity date of assets and liabilities whichever is earlier.

The following assumptions and conditions have been adopted in the analysis of actual interest rate repricing terms of assets and liabilities of the Group:

- Cash on hand; held-to-trading investments, held-to-maturity investments; derivatives and other financial assets; capital contribution, long-term investments; other assets (including fixed assets and other assets) and other liabilities are classified as non-interest bearing itemss;
- Balances with the State Bank of Vietnam are considered as current, interest rate repricing term is therefore considered within one month.
- The actual interest rate repricing term of debt securities (excluding special bonds issued by VAMC) are determined based on the actual maturity term of each type of securities at the reporting date;
- The repricing term of deposits with and loans to other credit institutions; loans and advances to customers; deposits and borrowings from other credit institutions; deposits from customers are determined as follows:
 - Items which bear fixed interest rate for the entire contractual term: the actual interest rate repricing term is determined based on the remaining contractual term calculated from end of the annual accounting period.
 - Items which bear floating interest rate: the actual interest rate repricing term is determined based on the next interest rate repricing date subsequent to the end of the annual accounting period.
- The actual interest rate repricing term of valuable papers issued is determined based on the remaining maturity term of each type of valuable paper.

The following tables show the Group's assets and liabilities categorised by the earlier of interest rate repricing date and contractual maturity date at the end of annual accounting period.

(iii) Market price risk

Market price risk is the risk that the market value of securities decreases due to changes in price of individual securities. Market price risk derives from trading securities, available-for-sale investment securities of the Group.

As at 31 December 2024 and 31 December 2023, the impact of equity price risk of the Group is minimal because the Group holds insignificant listed available-for-sale equity securities at end of the annual accounting period.

(d) Liquidity risk

Liquidity risk is the risk which the Group has difficulties in meeting the obligations of financial liabilities. Liquidity risk occurs when the Group cannot afford to settle debt obligations at the due dates in the normal or stress conditions. To manage the liquidity risk exposure, the Group has diversified the mobilisation of deposits from various sources in addition to its basic capital resources. In addition, the Group has established policy for control of liquidity assets flexibly; monitor the future cash flows and daily liquidity. The Group has also evaluated the estimated cash flows and the availability of current collateral assets in case of obtaining more deposits.

The maturity term of assets and liabilities is the remaining period of assets and liabilities as calculated from the balance sheet date to the settlement date in accordance with contractual terms and conditions.

The following assumptions and conditions are applied in the analysis of maturity of the Group's assets and liabilities:

- Balances with the SBV are classified as demand deposits with maturity within one (1) month which
 include compulsory deposits;
- The maturity term of securities held for trading is considered within one month because of their high liquidity, investment securities - debt securities is calculated based on the maturity date of each kind of securities;
- The maturity term of granted, entrusted funds and loans exposed to risk, valuable papers issued, due from and loans to other credit institutions, loans to customers is determined based on the maturity date as stipulated in contracts. The actual maturity term may be altered because loan contracts may be extended;
- The maturity term of long-term investments is considered as more than five (5) years because these
 investments do not have specific maturity date;
- The maturity term of due to and borrowings from other credit institutions, derivatives, due to customers and other financial liabilities are determined based on features of these items or the maturity date as stipulated in contracts. Vostro account and demand deposits are transacted as required by customers, and therefore, classified as current accounts. The maturity term of borrowings and term deposits is determined based on the maturity date in contracts. In practice, these amounts may be rolled over, and therefore, they may last beyond the original maturity date;
- The maturity term of a fixed asset is determined based on the remaining useful life of the asset.

Below is the analysis of assets and liabilities of the Group classified into groups based on the remaining terms from the reporting date until the maturity date. In reality, the maturity date of assets and liabilities might be different from commitments, depending on the appendices signed (if any).
