PROPOSAL

Regarding the listing of ABB shares on the Ho Chi Minh Stock Exchange

(Submitted to the Annual General Meeting of Shareholders 2026 for approval)

The Board of Directors of An Binh Commercial Joint Stock Bank (ABBank) respectfully submits to the General Meeting of Shareholders for approval the listing of ABB shares as follows:

1. Requirements and Necessity of Listing Shares

ABB shares of An Binh Commercial Joint Stock Bank have been registered for centralized custody at the Vietnam Securities Depository and Clearing Corporation (VSDC) and traded on the UPCoM system at the Hanoi Stock Exchange (HNX) since the end of 2020. After more than four years of trading, ABB shares have achieved stable liquidity, are better recognized by the market, and are gradually demonstrating the value and development potential of the Bank. In the context of an increasingly transparent domestic financial market and higher demands for governance standards, transferring ABB shares from UPCoM to official listing on the Ho Chi Minh Stock Exchange (HOSE) is necessary and consistent with the Bank's strategic development direction.

Listing shares on the HOSE will bring significant benefits, including: (i) enhancing ABBank's reputation, image, and market position; (ii) improving transparency and governance standards to meet the higher requirements of the listed market; (iii) strengthening the ability to raise medium and long-term capital for development; (iv) increasing attractiveness to domestic and foreign investors thanks to higher liquidity, quality of information disclosure, and supervision; and (v) enhancing shareholder value through the expectation of improved market capitalization and access to quality investment capital.

In addition, the listing of ABB shares is also one of the requirements in line with the direction of the restructuring plan for the credit institution system directed by the State Bank of Vietnam, which emphasizes the requirement to enhance transparency, financial capacity, and risk management according to international standards. Therefore, the listing transfer not only has strategic significance for ABBank but also demonstrates its responsibility to comply with state management guidelines and contribute to the overall goals of the banking system.

In 2025, ABBank achieved very positive business results, with significantly improved operational efficiency, and good asset quality and operational safety indicators. This is an important foundation that helps the Bank enter a new phase of

development with a more solid position, sufficient conditions and potential to implement activities to enhance corporate value, including listing its shares on the HOSE. Listing ABB shares on the HOSE facilitates the increase of value for the Bank and its shareholders, increases the attractiveness of ABB shares, and affirms ABBank's commitment to transparency, efficiency, and sustainable development.

2. Legal basis and assessment of compliance with listing conditions

The following regulations on the conditions for listing shares are the legal basis for assessing compliance and serve as the foundation for ABBank to develop a listing plan ensuring full compliance with legal regulations.

- Pursuant to Clause 1, Article 109 of Government Decree 155/2020/ND-CP dated December 31, 2020, detailing the implementation of several articles of the Securities Law, as amended and supplemented by Decree 245/2025/ND-CP dated September 11, 2025;
